

Organize a Student Exchange with the University of St.Gallen in Switzerland

Cooperate with the **Ressort International** (RI), the largest initiative of the Students' Union at the **University of St.Gallen (HSG)** in Switzerland and bring our Swiss exchange program to YOUR university!

The Ressort International is building on over two decades of experience in intercultural exchanges. Each year, we set up **five student exchange tours** with our partner universities worldwide and are constantly looking for new destinations.

On each of our tours, we invite 20 students from a partner university to Switzerland for a total of **10 days** (7 days in Europe), where we organize an attractive trip. The group also includes 20 of our Swiss students, with whom we visit to the exchange country in return. Our programs are built around economic, political, ecological, and cultural highlights.

The **organization** of our exchanges takes place in individual teams over the course of the school year, and happens in close collaboration with a club or association at a partner institution of the University of St.Gallen. Each year, we travel to **different destinations around the world**.
